

K-LOVE has been a positive influence for me, my family and friends. The presence of K-LOVE in my community is important. K-LOVE listeners support 100% of the expenses to run the station. The music and content are family oriented and needed in today's society. With all the trash on radio and TV my 13-year old daughter is inundated with on a daily basis, there has to be an alternative. People expel what they take in. It is essential to have an uplifting and positive voice available to all of us. Thank you for your attention. Chris Colletti
